

ELYTON
INTERNATIONAL
SCHOOL

A school
built to be
joined.

Juncta Juvant – together, we strive

PROSPECTUS • 2026 / 2027

Karen, Nairobi

elytonschools.org

An international school in Karen, teaching the British curriculum.

Elyton International School is open, and admitting for September 2026 and January 2027. We teach the British National Curriculum from Early Years through Key Stage 2, on a green campus on Magadi Road in Karen, Nairobi.

We cap every class at twenty-five children. That number is the reason for most of what follows: it is what lets a teacher know how each child reads, where each child struggles, and what each one does when they think nobody is watching. It is a promise about attention, and attention is the thing a school either gives a child or does not.

This prospectus sets out what we teach, where we teach it, what it costs, and how to join. Everything here is what we offer today — not a plan for later.

What shapes the school

Small by design

Twenty-five children to a class, so teaching is pitched to the child in front of the teacher rather than the middle of the room.

British curriculum, Kenyan setting

The EYFS framework and the British National Curriculum, taught in and about the place our children actually live.

Space to move

A 400m athletics track, playing fields, a pool and green grounds — not a compound with a strip of tarmac.

Open about cost

The full fee schedule is published — in this document and on our website. No figure appears only after you enquire.

Elyton, in numbers

Not projections — what's actually built and actually true today.

25

**Pupils per class,
maximum**

A cap, not an average.

3

Stages taught

*EYFS, Key Stage 1, Key
Stage 2.*

9

**Verified campus
facilities**

*Everything on the tour
route.*

2

Intake points a year

*September and
January.*

The founding promise

01 We are new. We will always say so.

This is Elyton's founding year. Every figure on this site is either a measured fact about our campus or a commitment we are choosing to be held to: real numbers and real promises, nothing invented or borrowed.

02 No more than twenty-five per class, from the very first day.

A hard ceiling on every class, not an average that lets one group run larger while another runs small. Our first families get the smallest classes Elyton will ever run, and the most attention per child we will ever be able to give.

03 The teachers you meet are the teachers you get.

Our teaching team is appointed before we open, ahead of any enrolment target. On a private tour you meet the people who will actually take your child's class, and you can ask them where they have taught and what they believe about learning.

04 A campus built for many more children than we will admit.

A purpose-built campus in Karen: a 400-metre all-weather athletics track, playing fields, a library, a multipurpose hall with a stage, smart classrooms throughout, handed to a cohort small enough to actually use all of it.

05 The British National Curriculum, taught properly.

Early Years Foundation Stage, Key Stage 1 and Key Stage 2, delivered by specialist teachers, with your child's progress reported against national expectations from the very first term.

06 Ask us anything, any weekday.

Fees, staffing, timelines, what is ready and what is still being made ready. Our Head of School and admissions team take open questions with nothing off the table. A school worth choosing can survive hard questions.

Ages 3–5: the Early Years Foundation Stage

Play-based, curiosity-led learning, aligned with the British EYFS framework — because at this age the serious work and the playing are the same activity.

Communication & language

Interactive story sessions, vocabulary building and confident verbal expression in small circles.

Personal & emotional development

Building empathy, self-confidence, cooperative play and emotional resilience.

Physical development

Fine motor crafts and gross motor sensory play in the Early Years outdoor ground.

Literacy & mathematics

Early phonics, mark-making, number sense and pattern — introduced through play, not worksheets.

Understanding the world

The garden, the weather, the city around us: first questions treated as real questions.

Expressive arts & design

Music, movement, paint and construction, in studios built for making a mess on purpose.

What a morning looks like

Children arrive to a settled room and a familiar adult. The day moves between circle time, self-directed play in provision areas, focused small groups for phonics and number, and long stretches outdoors. Snack and lunch are eaten together, and are included in the fees.

Key Stage 1 and Key Stage 2

From Year 1, children follow the British National Curriculum — English, mathematics and science at the core, with computing, the humanities, art, music, French and PE taught as subjects in their own right.

How we teach it

Reading is taught explicitly and often, and children are read to every day. Mathematics is taught for understanding before speed: concrete materials, then pictures, then the abstract notation. Science happens in the classroom and the field, where an experiment can be left standing overnight.

Written work is marked and returned with something the child can act on. Progress is reported to families in plain language — what your child can do, what comes next, and what would help at home.

Beyond the timetable

Athletics, swimming and team sport run through the week on our own track, fields and pool. Student leadership, clubs and an after-school programme give children somewhere to take an interest further, and horse riding, martial arts, piano, ballet and skating are available as optional activities.

Magadi Road, Karen

Green grounds, purpose-built teaching space, and room for a child to run properly at breaktime. Everything below is verified — on the tour route, not a rendering.

Interactive smart classrooms

Teaching spaces built for a class of twenty-five, with fitted display technology in every room.

400m all-weather athletics track

A full track wrapping the main building, usable through both rainy seasons.

Multipurpose hall

A hall with a stage, so assemblies, drama and a school production are possible rather than aspirational.

Music & performing arts

Instrumental tuition and performance, with piano lessons available as an optional activity.

Swimming pool

Swimming taught on site from the first term, rather than bussed out to a hired lane across town.

School library & reading corner

Quiet, well-stocked space built around the reading habit the British curriculum depends on.

Playing fields & outdoor activity areas

Open green ground for football, games and the simple business of running about.

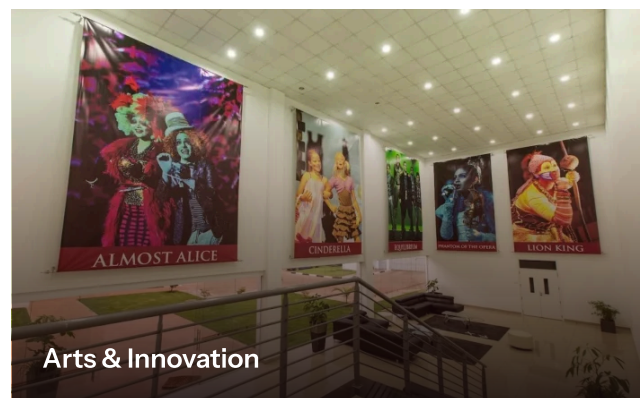

Computing & digital learning

Specialist computing provision supporting coding, robotics and digital literacy across the Key Stages.

Green grounds in Karen

Open ground to run on, in the quiet of Karen.

Joining Elyton

We are admitting for September 2026 and January 2027. Places are limited by our cap of twenty-five children per class.

- 1 Enquire**
Tell us your child's age and when you need a place. We reply with the founding fee schedule and the entry point your child would join, before any form.
- 2 Visit**
Book a private weekday tour and walk the campus, meet the teacher who would take your child's class.
- 3 Apply**
Complete the online application with your child's most recent school report. Founding cohort places are limited by our cap of twenty-five per class.
- 4 Meet your child**
A relaxed, age-appropriate session so we understand how your child learns and where they should start. It shapes their support plan, nothing more.
- 5 Join the founding cohort**
Accept your place, meet the other founding families, and help decide the things only a first cohort gets to decide, starting with our house names.

Come and see it

We run private weekday tours year-round. You will walk the campus during a normal school day and meet the teacher who would take your child's class — book at elytonschools.org/contact

What it costs

Tuition is inclusive of **meals, textbooks and stationery**. All amounts are Kenyan Shillings.

Early Years

Crèche	Termly	KES 150,000
Playgroup Sprout	Termly	KES 250,000
